
Are your customers looking for a powerful desktop scanner? Then the NEW Canon imageFORMULA DR-M160II Office Document Scanner with a free upgrade to Kofax VRS Elite (retail valued at \$650) is the answer.

With a combination of performance, convenience, and flexibility, the Canon imageFORMULA DR-M160II scanner is a compact document imaging solution for office environments. Its user-friendly design, high-quality image processing, reliable item handling, and intelligent software offer end-to-end options for capturing, converting, and communicating business information.

An upgrade to Kofax Virtual ReScan (VRS) Elite™ is also included with the DR-M160II scanner at no additional charge. Kofax VRS Elite reduces the time involved in manual document preparation and enhances the quality of scanned images, dramatically improving both manual scanning productivity and the efficiency of document capture processes. It can automatically examine documents and apply the correct settings to deliver high-quality scanned images.

If you have a customer interested in testing the DR-M160II in their environment, [contact your Cranel Imaging representative.](#) We can work with Canon on sending an evaluation unit to support your sales efforts.

Selling into the Government, Education or Healthcare verticals? Make sure you take advantage of the rebates available in these verticals. [Click here for details.](#)

We realize that award-winning products don't guarantee success. That is why Canon offers a wide variety of marketing programs to complement our products. Some of the programs designed to grow your business include:

- Instant rebates on many products
- Trade-in rebates on competitive product replacements
- Government, education, and healthcare deal rebates
- Evaluation units
- Sales tool portfolio, including brochures, marketing guides, and more
- One-stop reseller information web portal
