## High-Speed, High-Quality Scanning for Ultimate Production Efficiency

**The Canon imageFORMULA DR-G1130 production document scanner provides businesses with a high-performance, reliable, and flexible scanning solution to help enhance document management systems.**

### Wide Variety of Applications

The DR-G1130 scanner is ideal for processing large amounts of documents in mission-critical, centralized production scanning environments. It has been developed to withstand the rigors of production-level scanning, while maintaining high-speed, high-quality imaging. The DR-G1130 scanner will help companies improve productivity, maintain business continuity, and increase efficiencies.

### High Performance

The DR-G1130 scanner handles up to 130 pages per minute—both sides in a single pass—and holds up to 500 sheets in the ADF. It is also equipped with a dedicated, onboard image processing chip, making it capable of maintaining fast scanning speeds, even with various image processing capabilities enabled. These features all help contribute to improving productivity.

### Reliable and Flexible

The DR-G1130 scanner is flexible enough to reliably handle a variety of document types, from business cards to ledger-sized, long documents, and thin or thick documents,\* using its advanced feeding mechanism. This helps reduce labor-intensive pre-sorting and job preparation efforts. Plus, it has the ability to detect double-feeds and will attempt to recover from them. A durable, solid-body design as well as heavy-duty feed and eject trays further help enhance the scanner's reliability, allowing minimal downtime and maintaining business continuity.

## Efficient, Smooth Operation

The DR-G1130 scanner features an intuitive control panel that allows easy access to scanner settings, and user-programmable job buttons for one-touch operation. This scanner is also equipped with a motorized paper feed tray that can be adjusted to the height of the batch, and flexible paper feed and output guides. This, plus the ability to handle a variety of document types,\* helps to deliver unattended batch scanning for optimizing workflows and increasing efficiencies.

## Environment in Mind

The DR-G1130 scanner is part of Canon's Generation Green program. It also meets ENERGY STAR® guidelines for energy efficiency and complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.\*\*

## Customer Care

For investment protection, eCarePAK options are available to extend service beyond the initial 90-day on-site warranty period. This saves on costs associated with post-purchase maintenance and helps maximize uptime throughout the product life.
