

nForm[®] 410x Desktop Signing Device

The Ambir 410x tablet is a 10.4" color tablet that is exclusively designed for use with nForm Connect.

Zero integration. The 410x works wherever a document scanner would.

The 410x provides the most "paper like" experience when using nForm. Your patients electronically write on the exact form or document that is submitted.

Privacy is guaranteed because the only person that sees the form, is the person filling out the form.

Features:

10.4" Color display and Digitizer – Provides the most "paper like" experience with nForm.

Includes Stylus – Improves legibility of writing.

USB Powered – No external power needed.

Palm Rejection – Prevents unwanted marks on pages.

Kensington Lock Slot - Prevents theft and prevents tablet from falling off counter.

Ergonomic Design - Is easy on the wrists.

Plug and Play with nForm connect – No manual configuration or additional apps needed.
