

Work smarter by capturing and optimizing information

Kodak Info Input Portfolio

The **Kodak** Info Input Portfolio is a game changer for business. This portfolio of web-based capture solutions allows you to capture using smart devices, scanners, MFDs and email to ensure information is delivered to the right place at the right time.

Kodak Info Input Solution

Info Input Solution is a fully featured, powerful, web-based capture offering that allows users to scan, import, index, convert and submit documents from their centralized mailroom, across remote locations and departments or from within their own business applications. The mobile option enables users to capture on the go and submit information to business workflows correctly and securely.

Kodak Info Input Express

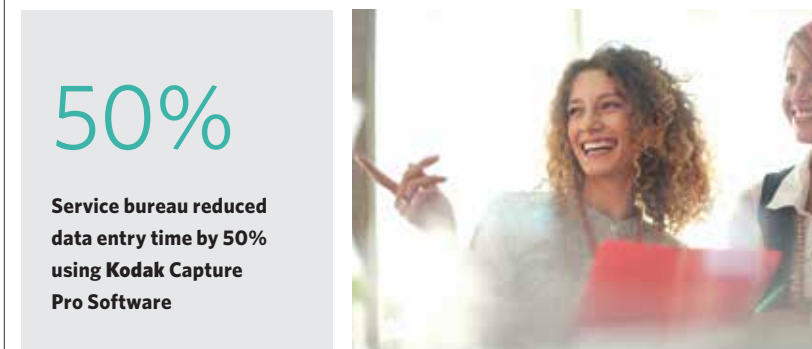

Info Input Express is an easy, intuitive web-based capture solution designed to allow users to simply scan, capture via mobile scanners, index, convert and submit documents to their desktop or business systems.

Smart Touch functionality

Quickly perform common scanning tasks such as scan and file, send e-mails, start applications, and do more with the push of a button.

- Predefined tasks so you can use and benefit from Smart Touch immediately
- Up to nine different, user-configurable settings as well
- Define file type (PDF, JPEG, TIFF, etc.) and scanning location (network drive, **SharePoint**, Cloud, etc.)

More at www.kodakalaris.com/go/smarttouch

Kodak Asset Management Software

System administrators can manage and maintain select **Kodak** Scanners on their network through one simple dashboard solution.

- Uses a thin-client dashboard to help optimize time, budgets, resources, and efficiency
- Know more and do more by remotely managing **Kodak** Scanners
- Quickly deploy updates and upgrades in a centralized way

Image enhancement software

Perfect Page Scanning

A suite of image enhancement and processing features, Perfect Page is only available on **Kodak** Scanners.

- Make digital images look even better than the originals
- Corrects for color, brightness, contrast, readability, orientation, and background
- Easy setup and configuration of all settings - turn on and off with ease

VirtualReScan Software from Kofax (VRS)

Select **Kodak** Scanners come with **VRS** integrated into the hardware and included in the box.

- Includes image-enhancement features, error resolution tools, and advanced color management tools
- No loss of speed when turned on
- Excellent fit for applications where operators and systems already use **Kofax** Software

Better. Together.

Productivity, reliability, efficiency, scalability, and simplicity delivered

Achieve more successful outcomes in the era of data chaos with world-class services from Kodak Alaris. Our team's comprehensive knowledge of products and solutions, combined with a keen understanding of your organization, lets you harness the power of big data to make your capture workflow more productive and information management more impactful.

- Simply better repair and maintenance services to optimize uptime and productivity
- Highly responsive, world-class Field Engineers and remote support experts who know your equipment and workflow
- Flexible service plan choices, added-value professional and managed services, and much more

About Kodak Alaris Information Management

The ever-increasing flood of data, and how we manage it, is one of the greatest opportunities facing businesses and governments in the 21st century.
