Kodak

Capture Pro Software

[Kodak Capture Pro Software](#)

Simplify Scanning | Automate Indexing | Maximize Connectivity

Kodak Capture Pro Software is the complete capture software application that allows you to scan, process, utilize, and manage documents and important data from those documents. Get powerful, flexible and affordable batch capture with Kodak scanners—and scanners from other popular manufacturers – in desktop to high volume production environments.

- Capture Pro Software is suitable for a broad range of horizontal application in many industries and market segments. It is ideal for either centralized or distributed scanning applications.
- Also available in the following editions:
 - Network Edition – Centrally manage remote scanning and indexing anywhere
 - Auto Import Edition - Auto import from apps, databases and storage systems
 - Limited Edition - Out-of-the-box productivity with **Kodak** scanner

[Smart Touch functionality](#)

Ideal for ad hoc document capture and output to a file, email, printer or [Microsoft SharePoint](#)

- Bundled with select **Kodak** Scanners (all but ScanStation and i5000 Series)
- Output documents in a variety of file formats
- Easily configure locations, then scan with one touch

[Kodak Info Input Solution](#)

KODAK Info Input Solution enables faster capture and access to information – at the office or remotely. Info Input Solution is a web-based and mobile capture application that is easy for workers across departments and enterprises to implement and use. Info Input offers high-speed scanning with real-time image display, indexing, and bar code detection. The customizable interface keeps things simple, focused, and extremely easy for knowledge workers to use. Documents are automatically routed to the right place to reduce mistakes.

With mobile capture you can utilise your smartphones and tablets to capture your documents and index information in the field. Improve your existing ECM infrastructure and mobile device investments with a capture solution ideal for mission- and time-critical activities.

In addition, Info Input can be embedded into your business applications. This enables users to scan from within the processes they already know and access every day.

reference guide for sales and
marketing assets.

[Kodak Info Input Express](#)

KODAK Info Input Express helps employees simplify document capture so information can be quickly and easily used in business processes. This web-based application has an intuitive interface that is simple to understand and use. Basic indexing steps ensure documents and data are consistently captured and delivered to the right place with less human error. Businesses can centrally deploy updates and policies to all users, which saves on maintenance and training costs.

KODAK Info Input Express can be integrated with Kodak Capture Pro Software to add remote, web-based validation and indexing to Capture Pro's robust optical character recognition (OCR), classification and automated indexing features.

Mobile Applications

Free and available from the iTunes App or Google Play stores:

ScanMate+ works with i1150WN and i1190WN scanners

Info Input Express Mobile is a companion to Info Input Express

Info Input Solution Mobile is a companion to Info Input Solution

Kodak Service & Support for Information Management Solutions addresses your system needs throughout the life of your investment, via installation, maintenance and valuable professional services, ensuring ongoing productivity as well as continued relevance of the solutions to your business processes for years to come.

Our services are available for Kodak-branded and other manufacturers' equipment alike providing a single source for your service needs.

Extending lifespan, reducing costs, and maximizing productive uptime are essential to your investment in technology.

Expanding the proficiency of your workforce and systems via training and application of cutting-edge technology is critical.

Kodak Alaris enables it all.
