### Organize

Organize your documents and leave the paper behind.

The RoadWarrior 2 quickly produces beautiful, crystal-clear, full-color scans of any document that you feed into it. So, why wait until you get back to the office to organize that stack of paper in your briefcase? With this lightweight scanner, you can scan your receipts, business cards, magazine articles, newspaper clippings and even photographs – fast. The RoadWarrior 2 will scan almost any document up to 8.5" (216 mm) wide and 14" (356 mm) long. And because documents can be scanned into a searchable PDF format, you can easily send and share information with your team, clients or headquarters.

Worried that your highlighted notes from the meeting won't scan clearly? What about the receipt that was folded in your pocket? Real world documents are never a problem for the RoadWarrior 2. Visioneer Acuity technology enables RoadWarrior 2 to instantly improve the visual clarity of every scanned image. You get perfect scans from imperfect originals. So, what are you waiting for? This is one travel companion that you want sitting next to you. And it will never talk while you're watching your movie inflight.
